DDS&T-0206-64

MEMORANDUM FOR THE RECORD

SUBJECT: Monrovia

1. The DCI today read the chronology of significant events prepared at his request and also of concern to Dr. Fubini. The Director commented that he felt there was ample justification presented in this record for the actions which NSA proposed to take. He asked me to go over this chronology with Dr. Fubini when the latter returns from his Far East trip.

2. He also instructed me to take the necessary steps to insure that all further projects generated in USIB sub-committees should bear a cost tag. He also desires to be informed of any requirements now under consideration in the USIB framework which have not been costed.

3. I informed John Bross of the Director's desires as reflected in paragraph 2 above, and then proceeded to instruct Executive Secretary of USIB, accordingly.
